

Improving Healthcare Outcomes in Chronic Disease – Enhancing the Curriculum at Masters level

Intensive Week, Pavia 20-24 May 2019

Erasmus+ KA2 IHOD project

*Improving Healthcare Outcomes in Chronic Disease –
Enhancing the Curriculum at Masters level*

Agenda IHOD project – Intensive week Pavia

From Milano Malpensa Airport (MXP)

Malpensa express train stops at both terminals T1 and T2 ([timetables here](#)). All Malpensa express trains stop at Milano Bovisa, where you can connect with the local S13 trains headed to Pavia ([timetables here](#)). Many Malpensa express then continue to Milano Centrale, where you can find [regional](#) (R,RE,RV) and [long-distance](#) (IC) trains to Pavia.

We advise all IHOD attenders to take a taxi from the Airport to the Hotel: the cost could take 150-200 euros.

Improving Healthcare Outcomes in Chronic Disease – Enhancing the Curriculum at Masters level

PAVIA's WEEK ON CHRONIC DISEASES – 20th-24th May 2019

The definition of “chronic diseases” that would be used in the project would be the more focused “non-communicable diseases”, and that following the completion of the stakeholder needs analysis, the actual list of diseases will be defined. The aim is to develop a multidisciplinary master's programme in public health (not just medicine, not just in nursing, not just in management etc.). It is likely, because each partner country has its own standards and differing accreditation rules that we will have to be flexible on course structure - but it is likely to be an 18 month (90 credit) graduate entry programme aimed at a combination of recent graduates and practicing public health professionals. The title is not yet decided but again is likely to vary between partners.
