Dear Sir/Madam,

We hereby inform you that participation in the IHOD project allowed us to develop a new educational program for the Master's degree in Public Health, the curriculum of which includes all 11 modules listed below:

1. Introduction to Public Health
2. Health Policy, Quality and Health Economics
3. Global Health and Health Informatics
4. Advanced Research Methods
5. Introduction to Biostatistics in Public Health
6. Epidemiology of Chronic Disease
7. Chronic Disease Case Management
8. Leadership and Management Strategies
9. Person Centered Care
10. Health Education and Promotion
11. Research Project

<https://www.dvfu.ru/en/admission/master-studies/master-s-degree-programs-in-english/>

We have also implemented the following modules in previously delivered educational programs - General Medicine, Organization and Management of Medical and Pharmaceutical Activities:

1. Epidemiology of Chronic Disease
2. Introduction to Biostatistics in Public Health
3. Health Policy, Quality and Health Economics

The Far Eastern Federal University educates students from more than 70 countries therefore the knowledge and experience gained during the implementation of the project will be transferred to the wide masses of future graduates, some of whom, returning to their countries of residence, will disseminate modern approaches to combat chronic diseases.

We also participate in the International Global Health Program of the Association of Pacific Rim Universities (APRU) and will disseminate this knowledge among all members of this association.

Far Eastern Federal University is the most authoritative expert organization regularly involved in the implementation of strategic planning and regional public health policy initiatives. The plans of the government of the Russian Federation for the development of the economy of the Far East require new approaches to modernize the social sphere and human health in this rapidly developing region of the Russian Federation, which will be greatly facilitated by the expertise and scientific support of the faculty of the Far Eastern Federal University involved in the IHOD project.

Sincerely yours,

Vadim Kumeiko, PhD,

School of Biomedicine, Vice Dean
Far Eastern Federal University (FEFU)
